PREFACE

IN COMPILING the present Supplement to Atkinson's Code of
the City of Savannah 1918, I have endeavored as far as possible
to confine the subjects to the same classifications as were adopted
in the Code.

The Supplement having been adopted by Council will govern
where the verbiage is in conflict with the Ordinance, but this is
not true with respect to the Acts of the Legislature.

I wish to express my appreciation to Honorable Shelby Myrick,
City Attorney, for his valuable assistance in the preparation of
this Supplement; also to Judge Emanuel Lewis, Associate Judge
of the Municipal Court and to Mr. H. Sol Clark, my law partner.

JOSEPH C. HESTER.

As the Mayor and Aldermen of the City of Savannah have no charter power to require railroad companies to elevate their tracks so as to give use to streets under their tracks, it is enacted, ordained and declared that the ordinance adopted April 11, 1918, touching the elevation of railroad tracks within the limits of the City of Savannah and for other purposes, is Ultra Vires null and void, and to remedy this defect it is enacted that the Mayor and Aldermen of the City of Savannah may by agreement with railroad companies, or rail and street railroad companies as to a reasonable share of the cost to be divided between the city and such companies, require and cause such subways and elevations to be erected as may be necessary for the welfare and convenience of the inhabitants of the City of Savannah. 76 (i). Resolution for Paving; Plans, Specifications and Estimates; Bond of Contractor, Bids, Award of Contractor. After the expiration of the time for objection or protest on the part of the property owners, if no sufficient protest be filed or on receipt of a petition for such improvement signed by the owners of more than one-half of the land to be assessed, if such petition shall be found to be in the proper form and properly executed, the said Mayor and Aldermen shall adopt a resolution reciting that no such petition has been filed, or the filing of such petition as the case may be, and expressing the determination of said Mayor and Aldermen to proceed with the said improvement, stating the several character of paving materials in the alternative proposed to be used, from which one is later to be accepted on the opening of the bids herein-after provided, and the manner of construction, and defining the extent, character and width of the improvement, and other such matters as may be necessary to instruct the Chief Engineer of said city in the performance of his duties in preparing for such improvement the necessary plans, plots, profiles, specifications and estimates. Said resolution shall set forth any such reasonable terms and conditions as said Mayor and Aldermen shall deem proper to improve with reference to the letting of the contract and the provisions thereof, and the said Mayor and Aldermen shall by said resolution provide that the contractor shall execute to the city a good and sufficient bond in an amount to be stated in such resolution for the maintenance in good condition of such improvements for a period of not less than five years from the time of its completion, or both in the discretion of said Mayor and Aldermen. Said resolution shall also direct the Chief Engineer of said City to advertise for sealed proposals for furnishing the materials and performing the work necessary in making such improvements. The notice of such proposal shall state the street, streets, or other public places to be improved, the kind of improvement proposed, what if any bonds will be required to be executed by the contractor aforesaid, and shall state the time when and the place where such sealed proposals shall be filed and when and where the same will be considered by said Mayor and Aldermen. Said notice shall be published in ten consecutive issues of a daily newspaper of general circulation in the City of Savannah. At the time and place specified in such notice the Mayor and Aldermen shall examine all bids received, and without unnecessary delay award the contract to the lowest and best bidder who will perform the work and furnish the materials which may be selected and perform all the conditions imposed by the said Mayor and Aldermen as prescribed in said resolution and notice for proposals, which contract shall in no case exceed the estimate of cost submitted by the Chief Engineer with the plans and specifications, and the said Mayor and Aldermen shall have the right to reject any and all bids and re-advertise for other bids when any such bids are not in its judgment satisfactory.

76 (j). Board of Appraisers; Membership, Report of, Review of Appraisement, Apportionment and Assessment. Within ten days from the date of the resolution appointing said board, the said board shall file a written report of the appraisal and assessment and apportionment of such expense and cost to the several lots and tracts of land abutting on said street, alley, lane or avenue, or other public place so improved, with the clerk of council of said city. When such report shall have been returned and filed, the said Mayor and Aldermen shall appoint a time for the holding of a session of council or shall appoint a time for the holding of a session of council or shall designate a regular meeting of council for the hearing of any complaints or objections that may be made concerning the said appraisement, apportionment and assessment as to any such lots or tracts of land abutting on said improvement, and notice of such session for the said hearing shall be published by the said clerk of council in at least five consecutive issues of any daily newspaper of general circulation in the City of Savannah, and said notice shall provide for an inspection of such return by any property owner or other party interested in such return. The said Mayor and Aldermen at said sessions shall have power to review and correct said appraisement, apportionment and assessment and to hear objections to the same, and to confirm the same either as made by said board or as corrected by said Mayor and Aldermen. Assessments in conformity to said appraisement and apportionment as confirmed by Council shall be payable in ten equal installments and shall bear interest at the rate of seven per cent annum until paid, payable in each year at such time as the several installments of the assessments are made payable each year. In case any ordinance shall have been adopted levying the assessment provided for in this and other sections of said Act before the work of paving or improving the street, highway or other public place shall have actually begun, such fact shall not invalidate such ordinance or such assessments and said Mayor and Aldermen shall have the rights in its discretion to compute and collect interest on such assessments from the date on which said work actually began instead of from the date of such ordinance levying said assessments; and said Mayor and Aldermen shall have also the right in their discretion to date any series of bonds provided for in this Act fifteen days after the date the said work actually began or fifteen days from the date of the ordinance levying said assessments and the foregoing provisions shall apply to assessments and bonds provided for prior to the passage of this amended Act, as well as those provided for hereafter.

747 (n). Endless Chain Merchandising. The endless chain
merchandising is defined to be where the dealer sells to a customer
for a certain sum a contract with coupons or contracts attached for
a stated value, but authorizes the customer to sell these coupons or
contracts at a stated value and giving each purchaser thereof in
turn the right to apply to the dealer and buy a similar contract and
pay a similar sum and receive similar coupons or contracts and in
turn to conduct the sale of the contracts as an endless chain. Pro-
vided that, when any customer has bought a contract and has sold
coupons or contract to different individuals, as above stated, such
customer is entitled to a receipt for the full amount of such cou-
pions, or contracts, upon the merchandise handled by said dealer.

An endless chain retail merchandising business is further de-
defined as including a business where the purchaser makes an initial
payment and is thereafter allowed commissions on a stated number
of resulting sales subsequently made on leaflets instead of coupons,
as above described; these leaflets being marked with a serial num-
ber and the commissions being calculated on orders obtained on
these leaflets, or credited to the serial number. The plan being that
when each one has made an initial purchase and received his serial
number on his order form he is given a number of leaflets with the
same serial number thereon and subsequent sales, following a stated
number, are thereafter credited to his serial number and he is given
a commission on orders obtained which are credited to his serial
number, by which the purchaser is supposed to secure a credit, in
this series to other parties who continue to duplicate the plan, and
thus carry it on in an endless chain.

Such certificate or license, however, is revocable at any time for cause. In case of such revocation, the owner of the aircraft or the pilot may demand from the Commissioner of Police a statement in writing of reasons for such revocation. He may then appeal from such revocation to the Police Court of the City of Savannah which shall then determine the truth and sufficiency of the matters causing such revocation.

All storage systems in which the tank may contain inflammable gases shall have at least a one-inch vent pipe, run from top of tank to a point outside of the building, and acceptable to the chief of the fire department, but which shall end at least 12 feet above level of sources of supply and in a location remote from fire escapes and never nearer than three feet, measured horizontally and vertically, from any window or other opening; the tank vent pipe shall terminate in a goose-neck protected in the outer end by a 40x40 mesh or equivalent non-corrodible wire screen. Or a combined vent and filling pipe, so equipped and located as to vent the tank at all times, even during filling operations, may be used. The vent pipes from two or more tanks may be connected to one upright provided they be connected at a point at least one foot above level of source of supply.

(c) Such tanks shall be substantially and rigidly installed on incombustible supports, in such a manner as to insure protection against mechanical injury. (d). Tanks for systems under pressure shall be designed for six times the maximum working pressure, and be tested and proven tight at twice the maximum working pressure. Maximum working pressure shall not exceed 50 pounds. Such tanks shall be provided with a reliable pressure gauge and with automatic relief valve pipes to discharge to the storage tank or outside of the building to a safe place. (e). Tanks shall be filled by pumping from storage tank, or if gravity or pressure tank contains the entire storage, filling pipe shall extend to and terminate outside the building as provided in Section 832 (o) and in such cases shall be so installed that in case of overflow, oil will not enter the building. (f). Tanks supplied by pumping shall be provided with overflow connection draining to storage tank. Overflow pipe shall be not less than one size larger than supply pipe from pump. (g). The overflow pipe of gravity tank shall not be provided with valves or other obstructions; but overflow pipe or pressure tank and air supply tank shall be provided with inter-connecting valves, so designed that the opening or closing of overflow pipe shall result similarly in air supply pipe.

(b). Control valves shall be provided with stuffing box of liberal size containing a removable cupped gland, designed to compress the packing against the valve stem and arranged so as to facilitate removal. Valves shall be designed to close against the supply, and to prevent withdrawal of stem by continued operation of the hand wheel. The use of packing affected by the oil or heat is prohibited.

Oct. 1, 1924.

832 (dd) Furnace or Ranges.

(a). The burner mechanism shall be so designed as not to enlarge the orifice and so that the needle valve can not be unscrewed and removed in operating. The size of orifice through which the oil is supplied to the burner shall be limited to furnish only sufficient oil for maximum burning conditions when the control valves are wide open.

(b). Burners containing chambers which allow of the dangerous accumulation of gases, or oil conveying pipes or parts subject to intense heat or stoppage due to carbonization are prohibited.

(c). Burners shall be so designed as to permit of ready cleaning and not allow the leakage of oil.

(d). Burners shall be properly supported if necessary independently of the piping.

If, after a hearing of such charges before the Mayor, the Mayor shall determine that the person so accused has been guilty of violating the prohibition law of the State of Georgia in connection with the running of his business, or that said prohibition law has, with the knowledge of the person so charged, been violated upon his business premises, then the Mayor shall revoke and cancel the license or licenses issued to said accused party for conducting his business at the place where the prohibition law was so violated. In the event of the revocation or cancellation of any license, the Mayor shall report the same at the next meeting of Council, and when the action of the Mayor is confirmed by Council, such revocation and cancellation of said licenses shall be effective, and it shall be unlawful thereafter for any such person, firm or corporation to further engage in such business in the City of Savannah and said place of business may be closed by the chief of police of said city and the proprietor thereof docketed in Police Court for doing business without a license. Provided, that upon any such hearing the Mayor may in lieu of revoking the license of such accused person and so reporting it to Council require such accused person to give a bond payable to the Mayor and Aldermen of the City of Savannah in the sum of $2,000, conditioned upon such accused person faithfully keeping and observing and not violating the prohibition laws of the State of Georgia, as well as that certain ordinances of the City of Savannah adopted and approved January 26, 1921, forbidding any person, firm or corporation from selling or offering for sale in his place of business any veverage, article of merchandise or commodity other than that permitted by his license covering his place of business. Upon the Mayor requiring said bond upon such hearing in lieu of revoking the license of the accused person, he shall report his action to Council for approval, and his action shall become binding and effective upon such accused person after such approval by Council. Upon any subsequent violation of the prohibition laws of the state of Georgia by such accused person being reported to the Mayor of Savannah, he shall have the right, after notice to and hearing of such accused person, to revoke the license of such accused person, not withstanding that said bond may have been given, and he shall then report his action to Council for approval, and the license of the accused person will stand revoked, and it shall be unlawful for such person to thereafter do business upon the approval of the action of the Mayor by Council. Thereafter, the Mayor shall order suit to be instituted against such accused person upon the bond given for the full amount of the bond, and upon the recovery of such amount, same shall be paid into the treasury of the City of Savannah. The said bond provided for herein shall contain the further provision that a violation of the prohibition laws of the state of Georgia, or of said ordinance of the City of Savannah of January 26, 1921, shall be considered a breach of the condition of said bond, and a suit therefor for the full amount of the bond may be instituted by the Mayor and Aldermen of the city in any court which has jurisdiction and that it shall not be necessary that there shall have been a conviction of the principal giving the bond before a suit for the breach thereof can be instituted, and the further provision that the said sum of $2,000 shall be a penalty and that the full amount thereof shall be recoverable for any such breach thereof. The said bond shall have such surety or sureties thereon as may be approved by the Mayor of the City of Savannah and shall specify the place of business of the principal obligee and shall extend for such period of time as said principal obligee may continue to do business in said place mentioned and specified in any such bond.

CHAPTER LXXI.

PARKS, SQUARES AND GRASS PLATS.

1738 (a). Title to Forsyth Park Extension Fixed. Title to Forsyth Park Extension was fixed in the Volunteer Military Companies of Savannah by the following ordinance:

WHEREAS, in the year 1853 the United States Government conveyed to the City of Savannah for the Volunteer Military Companies of Savannah a tract of land formerly known as the Old Cantonment and on the 11th day of August, 1853 the Mayor and Aldermen of the City of Savannah adopted an Ordinance dedicating the said tract of land described in said ordinance, as a Military Parade Ground, and provided in said Ordinance “that the control, custody and management of said Parade Ground shall be vested in the Captains for the time being of the several Volunteer Companies of the City of Savannah, who shall have exclusive charge thereof, subject, nevertheless, to the Police regulations of the City of Savannah”, as will more fully appear by reference to the Ordinance of Savannah published by Charles S. Henry, Esq., in the year 1854, on page 133, and also by the minutes of Council:

AND WHEREAS, in the year of 1859 these officers filed with the Mayor and Aldermen of the City of Savannah a formal petition to the effect that the city grant to them, in exchange for this Parade ground, the tract of land now known as the Park Extension, this petition was referred to a Committee on August 4, 1859, this Committee reported in favor of the exchange of the tracts of land on September 1, 1859, and this report was adopted and approved as appears by the Proceedings of Council for that year, page 263, the exchange being had on November 10, 1859. (Proceedings of Council, page 284). The Committee on sales and Public Lots was given power to act with regard to the land obtained from the Military in exchange. On October 11, 1860, it made a formal report to the Council of the City of Savannah with regard to this exchange, and this report recites that the city had profited by the exchange to the extent of Thirty Thousand Dollars ($30,000) and that the Military of the city of Savannah now possesses a handsome, permanent and attractive Parade Ground, properly fenced and graded, wherein Company and Regimental drills may at all times be held, the reference being to the present Parade Ground.

AND WHEREAS, it appears by the records of the Council of the City of Savannah that the City of Savannah has subdivided the old Parade Ground obtained from the Military, and sold it, and received in the city Treasury the proceeds therefrom, and cannot, in equity and good conscience, assert title to the present Parade Ground.

AND WHEREAS, by the Ordinance passed July 22, 1914, and to be found in Section 1739 of Atkinson’s Code of Savannah, it was provided as follows: The use of the Parade Ground, or Forsyth Park Extension, as a playground shall not be a relinquishment of any right which the Volunteer Military Companies of Savannah may have in said Parade Ground, or in the use thereof, the rights of the Volunteer Companies in and to said Parade Ground being hereby confirmed and preserved, this Ordinance being the last Ordinance on the subject;

AND WHEREAS, some questions have been made as to the title of the Military Companies, and it is important that they be settled;

NOW THEREFORE, in view of the foregoing and the fact that the City of Savannah made the exchange mentioned and has received the benefits of the exchange, and yet has failed to make any formal transfer, it is hereby ordained by the Mayor and Aldermen of the City of Savannah in Council assembled, that the title and right of the Volunteer Military Companies of Savannah, through their Commanding Officers, in the ground known as the Parade Ground, or Forsyth Park Extension, the same being bounded on the North by Forsyth Park, proper, on the East by Drayton Street, on the South by Park Avenue, and on the West by Whitaker Street, as a Military Parade Ground, are fully recognized and confirmed as fully and as completely as if a deed of exchange had been made.

July 11, 1923.

1762 (a). Rockwell Park. That certain tract of land, lying and being in the City of Savannah, having the following boundaries, to-wit: Bounded on the North by what is known as Tenth Street; on the East by Montgomery Street; on the South by what is known as Fourteenth Street, and on the West by West Broad Street, with the exception of the roadway now used by Forty-third Street, is set aside and designated as a “Public Park,” said Park shall be hereafter known and designated as the ROCKWELL PARK, in honor of the late W. O'D. ROCKWELL, City Engineer of the City of Savannah.

July 2, 1930.

1762 (b). Bacon Park. The Mayor and Aldermen do forthwith enter into an agreement with Chatham County, a political subdivision of the state of Georgia, that upon dedication by county to the public use as a park a certain seven hundred sixty and ninety-three one-hundredths acres (706.93) of land in said county, being certain part of tract now known as “County Farm”, as long as improved, maintained and operated by said Mayor and Aldermen, and that the said Mayor and Aldermen, will put the said tract in proper condition for use as a park, building thereon a golf course, and thereafter as funds are available, a baseball field, a polo field, tennis courts and other like amusement and recreation features, and suitably maintain same, which said agreement provides for arbitration between County and Mayor and Aldermen in case of disagreement, all of which is shown and embodied in greater particularity in the said instrument and agreement between the parties dated the fourteenth day of August, 1925, already executed by County and as now of record in minute book "L" of Commissioners’ Court of Chatham County, to which reference is made for greater certainty as to the terms thereof.

The Mayor of the City of Savannah is authorized and empowered to execute the aforesaid agreement in the name and on behalf of the Mayor and Aldermen of the City of Savannah. The Mayor and Aldermen of the City of Savannah, under the corporate seal of the city to be duly attested by Clerk of Council.
