**It is the responsibility of the company purchasing the decal(s) to furnish the guidelines to their employees.**

**Initials- received a copy of the guidelines:** \_\_\_\_\_

Commercial Decal fees are hereby established and required for business vehicles parked in marked freight zones, lanes, or alleys for the purpose of loading and unloading merchandise or providing maintenance, repair, or construction services. Meter permits cannot be used to park in lanes unless your activity requires constant access to your vehicle for tools and/or equipment. Meter permits may not be used for more than 2 hours without prior approval; meters/time zones with a 30-minute limit are prohibited. All permits must be clearly visible on the dashboard with the company name and license plate number displayed. Commercial decals cannot be used in a Passenger Loading Zone. Use of freight zones and lanes is prohibited unless active and visible loading and/or unloading, or servicing is underway. Commercial decals must be affixed to the front passenger side windshield of the vehicle.
