

St. Joseph's/Candler is bringing MOBILE MAMMOGRAPHY TO THE CITY OF SAVANNAH

ON-SITE 3D MAMMOGRAMS

Patient Eligibility

- ❑ If you are a woman aged **35-39**, it is important to check with your insurance provider to see if you are eligible for an annual screening mammogram. For women aged **40** and over, the American College of Radiology recommends annual screening mammograms.
- ❑ To be eligible for this screening, you must not have had a mammogram within the last 12 months (unless confirmed with your insurance provider).

- You must have seen a gynecologist, primary care physician, or internist within the last 18 months who is willing to accept your screening results.
- You cannot be pregnant or breastfeeding, nor can you have implants or breast issues such as a lump or discharge from the nipple area. If you are experiencing any breast problems, it is important to promptly contact your physician for evaluation.
- While most insurance plans cover annual screening mammography, it **is recommended that you check with your insurance company for exact coverage**, as there may be a copay deductible.
- For your convenience, we will file a claim with your insurance provider on your behalf.
- If you are uninsured or underinsured, you may be eligible for a free mammogram through SJ/C Mobile Mammography and the SJ/C Mammography Fund. Contact the SJ/C Mammography Fund Helpline at 912-819-7055 to learn more or complete an application.
