

1121-041-GSM-gau (USMARC)
City of Savannah Municipal Archives, Savannah, Georgia [GSG (OCLC/LYRASIS)]

Record Series #: 1121-041
Name: City of Savannah Digital Photograph Collection
Dates: 1989-2023, no date
Extent/Size: 4,543 files (8 GB)
Language: English

Scope & Content:

Record Series 1121-041, City of Savannah Digital Photograph Collection is comprised of born-digital photographs taken by City of Savannah staff (representing various City departments and offices) of City events, facilities, and employees. Images were transferred to the Municipal Archives by City departments and staff, captured by Municipal Archives staff from City outreach (press releases, social media, website), as well as taken by Municipal Archives staff in the course of their duties. Events represented include but are not limited to: groundbreaking, ribbon cuttings, and dedications for City parks, buildings, and facilities; sign unveilings; swearing-in and promotion ceremonies for the Police and Fire departments; canned food drives; Mayor's motorcades; City Council Meeting recognition ceremonies; employee retirement parties; Summer 500 internship events; history tours; and community outreach events. City departments and staff represented include but are not limited to: Mayors and City Council, with an emphasis on administrations starting in 2010; City Managers; Police leadership and personnel; and Fire Department leadership and personnel. Images depict renovations to City Hall, the Pulaski Monument, and City parks, as well as document clean-up efforts after natural disasters such as Hurricane Matthew.

System of Arrangement, Description & Ordering:

All images in this collection are in electronic format; no physical version of this collection exists. The image folders are arranged as they appeared in the original electronic file directories based on chronological order in which the items were accessioned. Folders represent groups of images that were accessioned together for an independent event. Images accessioned individually are grouped by year taken. Folder and file names were provided by the creator of the photograph or the staff member who captured the files at the time of accessioning. Additional descriptions were provided by the processing archivist. If all files in a folder share a common theme, the images are described at the folder level. Files are described at the item level where item level descriptions were provided.

Additional accruals expected.

Conditions Governing Access:

This collection is fully electronic and is stored on internal Municipal Archives servers. A representative sample is available on the [Digital Image Catalog](#). Contact the Archives at Archives@Savannahga.gov to request access to collection materials.

Conditions Governing Reproduction and Use:

Please read the following statement on copyright carefully. ***Permission to reproduce does not constitute permission to publish.*** Researchers who plan publication are asked to discuss this with the archivist first for written permission. While most of the Municipal Archives' collections are public records and in the public domain, not all are, and the Municipal Archives may not be the owner of copyright for all its archival materials. Researchers are responsible for obtaining any necessary permission to publish from the holder of copyright. In the event that the Municipal Archives becomes a source for publication, a copy of the publication is requested for the Municipal Archives.

Record Series 1121-041, City of Savannah Digital Photograph Collection

NOTICE: WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be “used for any purpose other than private study, scholarship, or research.” If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of “fair use,” that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve a violation of copyright law.
