

**Record Series #:** 3121-007  
**Name:** City of Savannah, Engineering Department – Retrospective  
Maps Collection: General Maps  
**Dates:** 1756-2022, no date  
**Extent/Size:** 1129 maps in 2 document cases, 69 oversize folders, and 2  
storage cans (20 cubic feet)  
**Language:** English

**Scope and Content:**

Record Series 3121-007, City of Savannah, Engineering Department – Retrospective Maps Collection: General Maps (1756-2019, no date), is part of a larger collection of over 3,000 maps that illustrates property holdings, as well as land subdivision for City and private development. The maps also record property lines, right-of-ways, water and sewer lines, and street openings. Many maps include the names of property owners. When possible, these names are provided in the attached inventory. One of the earliest maps includes the original land grants for the township of Savannah. Like the East/West map collection, the General Maps highlight the careers of City and County Engineers and Surveyors. One unique feature of this collection is that it includes landscaping plans for the City's streets, parks and squares, which underscores the career of Georges Bignault, whose firm, Bignault and Sons, served as the City's landscape architects throughout the 1930s and 1940s. The collection further includes maps of cemeteries, canals, City Atlases, urban renewal projects, landfills, and the Savannah Harbor, as well as tracings of the East/West maps.

**System of Arrangement and Ordering:**

The Retrospective Maps Collection: General Maps are arranged by assigned map reference letter/number. The letters originate from the organizational system assigned them by the Engineering Department and are arranged in the following order:

A-H and M-R:	Tracings
J:	Tracings of East/West Maps
AA, BB, CC, DD, FF, GG and JJ:	Miscellaneous Tracings
XA:	General City Maps
XB:	Maps not created by City Engineering
XC:	Water/Sewer
XD:	Water Works
XE:	Fences and Property Lines
XF:	Cemeteries
XG	Canals
XH:	Miscellaneous
XI:	Savannah Harbor
XJ:	Park and Tree Commission
XY:	City Atlases
XZ:	Oversized Maps
ZZ:	Addenda

A numerical inventory is maintained by the Municipal Archives with the following information recorded for each map:

Map Reference #  
Description (title when available from title block of map, otherwise applied title/description derived from information provided on map)  
Date (includes: no date if none available; original date with revision date following; or informational date with copy date following)  
Surveyor/Engineer  
Box #  
Folder #  
Duplicates  
Processing Notes (includes: archivists' notes regarding condition of maps; missing maps; or miscellaneous descriptive information)

**Conditions Governing Access:**

None

**Conditions Governing Reproduction and Use:**

Please read carefully the statement on copyright below. **Permission to reproduce does not constitute permission to publish.** Researchers who plan publication are asked to discuss this with the archivist first for written permission. While most of the City of Savannah, Municipal Archives collections are public records and in the public domain, not all are, and the Municipal Archives may not be the owner of copyright for all its archival materials. Researchers are responsible for obtaining any necessary permission to publish from the holder of copyright. In the event that the Municipal Archives becomes a source for publication, a copy of the publication is requested for the Municipal Archives.

**NOTICE: WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve a violation of copyright law.

**Additional Finding Aids:**

The following hard-copy inventory and index is available in the City of Savannah, Municipal Archives: Numerical inventory by map reference number.

For more information on finding aids, please contact the Municipal Archives at [archives@savannahga.gov](mailto:archives@savannahga.gov) or (912) 651-6412.

***Preservation Note:***

The Retrospective Maps Collection was transferred to the City of Savannah, Municipal Archives from the Engineering Department in August 1987. The original re-housing and inventorying project was completed by the Municipal Archives in 1988 and maintained the original order of the maps established by the Engineering Department.

The General Maps include both maps which are arranged according to their original organizational scheme and maps upon which an organizational scheme was imposed to facilitate this inventory. Those which retain a historical arrangement were previously organized, by the Engineering Department, according to single and double letter groups. During the initial re-housing the items in General Maps that did not suggest an inherent organizational scheme, were organized and numbered according to the following subject areas: general city maps, maps not created by city engineering, water/sewer, fences, property lines, cemeteries, canals, miscellaneous, Savannah Harbor, Park and Tree Commission, City Atlases and oversized maps.

In 2012, in an effort to promote their long-term preservation and facilitate retrieval, all maps were re-housed in legal sized folders and document cases or oversized folders in flat file map drawers, based on their map size.

# 3121-007-General Maps by Map Number
