

**5600EN-GSM-gau (USMARC); GSG (OCLC/SOLINET)
City of Savannah, Municipal Archives, Savannah, Georgia**

Record Series #: 5600EN

Name: City of Savannah, Georgia Records – Engineering Department

Dates: 1879-1969, no date

Extent/Size: 138 volumes, 40 document cases, 2 ½ document cases, 1 folder (90 cubic feet)

Organizational History:

From 1798-1890, the City Surveyor's Office oversaw all engineering related work of the City (Gamble, p. 491). Over the years, the City Surveyor's duties included: approving building requests; maintaining a map of each tything in the city with delineations of each building (tythings consist of ten house lots; four tythings comprise a ward); supervising the removal of encroachments and obstructions to the city streets; producing a proper level in the city and controlling any changes (Code of Savannah 1858 pp. 97-100); supervising and inspecting any public work or improvements; laying out public squares and parks (Code of Savannah 1888 p. 76); supervising any alterations or repairs to wooden houses; supervising sewer connections; submitting a plan of drainage to the Mayor; surveying lines for new wharves; directing foremen of street gangs (Code of Savannah 1871 p. 197); maintaining the physical condition of public buildings and properties, municipal wharves and terminals, the airport, and of streets and sewers; and acting as the Building Inspector (Code of Savannah 1945 pp. 57-62).

In 1989, the responsibilities of the Engineering Department included: supervising Capital Improvements Projects; and reviewing and inspecting subdivisions and private site development. The department employed civil engineers, surveyors, and construction inspectors (Urban, Serving Savannah, p. 7). The Development Services department, in the Public Development Bureau, now carries on the functions of engineering, surveying, building inspection and permitting services (2008 Service Program and Budget, p. 120). Development Services is responsible for interpreting and enforcing the codes that affect the safety and welfare of the public and its property. The codes regulate building and site construction, life safety and structural items, as well as electrical, plumbing and mechanical systems.

Scope and Content:

Record Series 5600EN City of Savannah, Georgia Records – Engineering Department (1879-1968, no date), is arranged into the following sub-series. See Scope and Content notes for each sub-series for further information about the content and arrangement of the materials.

5600EN-010	Sewer Profile Books
5600EN-020	Letter Books – City Surveyor
5600EN-025	Letter Books – City Engineer
5600EN-030	Street Opening Record Book

Sub-series #: 5600EN-110

Name: Sewerage Extensions

Dates: 1914-1915

Extent/Size: 1 ½ document cases (0.75 cubic feet)

Sub-series description:

Sub-series 5600EN-110 Sewerage Extensions (1914-1915) includes one and a half document cases of records documenting the extension of the City's sewers, including work: on the Bilbo Canal; in the Paulsen Street area; on the Brow Ditch Pipe Plant; and the Lock Joint Pipe Company. The records include: dates work done; station; depth and width of the cut; cubic yards of excavation, overhaul and reinforced concrete; pounds of reinforced steel bars; the amount of pine, cypress and sheeting lumber used; the diameter and linear feet of reinforced concrete or terra cotta pipe; manholes by size; manhole covers; extra work; and remarks. Some of the files are accompanied by vouchers for the recorded work.

Folders 26-28 in Box 2 contain vouchers for work completed, which record the date, company, section number, a description of the work by date, amount, and totals. Folder 29 of Box 2 contains force accounts of Bilbo Canal intakes, including: date; number of men and hours worked; amount; rate; total; costs for making hinges, building a tide gate, and handling materials; and the types of materials used (cement, sand, stone, cypress, and steel).

Sub-series #: 5600EN-120A

Name: Private Property Surveys: Applications with Plats (Indexed)

Dates: 1887-1953, no date

Extent/Size: 46 volumes (48.48 cubic feet)

Sub-series description:

Sub-series 5600EN-120A Private Property Surveys: Applications with Plats (1887-1953, no date) includes forty-six volumes of surveys of more than 11,500 pieces of private property prepared by the City Engineer's Office upon request. These records were maintained in three distinct groups: Applications for Survey (1889-1907); Recorded Folio (Plats) (1887-1907); and Applications for Survey with Plats (1907-1953).

Each Application for Survey includes: date of application; ward name and lot number; description of the location and character of the property; reason survey being applied for; signature and address of the applicant; amount of fee for the survey and a paid designation; remarks; signature of the City Engineer receiving the application; date surveyed; name of surveyor; and cross-reference to the recorded folio (plats). Later volumes also include: the number of the receipt; a cross reference to the notes folio; the date the permit was received from the Building Inspector; and the date returned to the Building Inspector.

Each Recorded Folio (Plat) contains: a map or plat of the property; the name of the ward and lot number; the location of the property; the name of person for whom property was surveyed; the date of the survey; and the signature of the City surveyor. Later volumes also include: signature of the City Engineer who approved the plat; and cross references to the application folio and notes folio.

One index volume, arranged alphabetically by ward, was prepared for this entire sub-series. Under each ward, surveys are identified by lot, in chronological order (by date of application), and may include street names, subdivisions, and tythings. For each survey, a cross reference is provided for the Application for Survey and Recorded Folio (Plat), or Application for Survey with Plat, and the field Notes (see 5600EN-120.1A Private Property Surveys: Field Books/Notes/Indexes). Each cross reference designates the book letter and folio number. The volumes of the Applications for Survey with Plats are identified by the rebound volumes' book letters, A-Z, only some of which letters are still evident in the front of the rebound volumes. Most of the notes cited seem to be those of J. deBruyn Kops, R. M. Bailey, W. O'D. Rockwell, and a few of John W. Howard. The index volume has no title page, and its compiler is not named. Although no inclusive dates for the indexing are provided, it appears the index covers the entire range of the three series of volumes, although possibly not comprehensively.

Notes:

Volumes 1-37 were rebound in 1979 and the title "Applications for Survey with Plats" was incorrectly applied to the spines of the first thirteen volumes containing only applications or only plats. Volumes 38-46 maintain their original bindings and include one completely unused volume. All the volumes are labeled on the spine with the application and/or plat numbers contained in them.

Sub-series #: 5600EN-120.1A

Name: Private Property Surveys: Field Books/Notes/Indexes (Indexed)

Dates: 1887-1953, no date

Extent/Size: 7 document cases (3.5 cubic feet)

Sub-series description:

Sub-series 5600EN-120.1A Private Property Surveys: Field Books/Notes/Indexes (1887-1953, no date), includes seven document cases of field notes and field books, and corresponding indexes, prepared by City surveyors in the course of their work. The field notes and books correspond to the property surveys found in Sub-series 5600EN-120A Private Property Surveys: Applications with Plats. The volumes are arranged by surveyor, including: J. deBruyn Kops; William O'D. Rockwell; John W. Howard; and R. M. Bailey. The field notes of Rockwell, Howard, and Bailey are indexed in separate volumes, arranged alphabetically by street or location name. The indexes provide citations to the field notebook volume letter and note number. These field notes and books constitute primary documentation for the survey work represented in the completed plats in Sub-series 5600EN-120A Private Property Surveys: Applications with Plats. The final plats include cross-references to these field notes (with the exception of 5600EN-120A Volumes 1, 6, 7, and 8). The cross-reference, labeled as "Notes Folio," provides a prefix letter (A for John W. Howard's notes; R for W. O'D. Rockwell's; B for R. M. Bailey's; and F for loose-leaf notes) followed by the number of the individual note. Notes for Kops and the earliest notes for Rockwell are cited by number only, with no prefix.

Related Series:

Sub-series #: 5600EN-120.2

Name: Private Property Surveys: Payment Receipts

Dates: 1942-1945, 1951-1953

Extent/Size: 3 volumes (1 cubic foot)

Sub-series description:

Sub-series 5600EN-120.2 Private Property Surveys: Payment Receipts (1942-1953), includes two volumes of carbon copies of payment receipts for Private Property surveys prepared by City surveyors. The receipts correspond to property surveys found in Sub-series 5600EN-120A Private Property Surveys: Applications with Plats, though they do not include the final survey and plat number. The volumes are arranged chronologically and contain: date, payer, amount paid, lot number, ward name, and City Treasurer signature.

Related Series:

See Sub-series 5600EN-120A Private Property Surveys: Applications with Plats for final surveys and plats prepared from these field notes.

Note:

5600EN-120.2 Volume 1 was originally described as 5600CT-650 Volume 2, but in August 2023, it was re-processed into this series.

Sub-series #: 5600EN-125A

Name: Engineering Field Notes and Books

Dates: 1880-1968

Extent/Size: 12 document cases, 1 volume (6.25 cubic feet)

Sub-series description:

Sub-series 5600EN-125A Engineering Field Notes and Books (1880-1968) includes twelve document cases of field notes and books kept by employees of the City Engineering department about various projects. In some cases, the notes and books are identified by employee or engineer. In other cases, the notes are identified by project name or the nature of the work involved, for instance Levels and Transit. Projects and locations include: Savannah Sewer Survey (1912); sanitary and storm sewers; monuments; cement pests; Slum Project Survey (Yamacraw); municipal airport; Twickenham; Avondale; Cuyler Swamp; Bilbo Canal; Casey Canal; Paulsen Street Sewer; and Brow Ditch.

Engineering employees represented in this sub-series include:

Sub-series #: 5600EN-130A

Name: Engineering Maps Index Books (Indexed)

Dates: 1906-1913, 1962-1964, no date

Extent/Size: 7 volumes (1.0 cubic foot)

Sub-series description:

Sub-series 5600EN-130A East/West Map Index Books (1906-1913, 1962-1964, no date) includes five index volumes for maps and plats prepared by the City Engineer's Office, including those of the City of Savannah, Engineering Department, Retrospective Maps Collection – East/West Maps.

Arrangement:

Alphabetical by ward.

Inventory:

5600EN-130A Volume 1 East/West Map Index, no date

This index is arranged alphabetically by wards and indexes maps dating from 1798-1910. Entries are listed under each ward by lot number and street name, and provide: the engineer who prepared the map; the year of the map; and the map location in the East/West Map collection (all maps east of Bull Street are numbered East-#; all maps west of Bull Street are numbered West-#). Maps identified in this index can be found in City of Savannah, Engineering Department, Retrospective Maps Collection – East/West Maps.

5600EN-130A Volume 2 Index to Maps in Cabinet, 1906-1913

This index is similar to the East/West Map Index in format. It includes notes and costs for paving various locations in the back.

5600EN-130A Volume 3 Index of Plats, no date

This index is arranged alphabetically by ward and indexes maps dating from 1798-1904.

5600EN-130A Volume 4 Index Book (City Surveyor's Office), no date

This volume includes entries listed alphabetically by ward, and indicates East or West followed by a plat number.

5600EN-130A Volume 5 Index Book, no date

This volume lists wards in alphabetical order, followed by a plat book reference and a plat number.

5600EN-130A Volume 6 Record of Drawings, 1962-1964

This volume includes a listing of drawing titles, dates, and initials by whom drawn.

5600EN-130A Volume 7 Index of Streets, Lots, Wards, and Dry Culture, no date

Arranged alphabetically. Note: severely damaged,

5600EN-GSM-gau (USMARC); GSG (OCLC/SOLINET)
City of Savannah, Municipal Archives, Savannah, Georgia

Sub-series #: 5600EN-140A

Name: Applications for Grade (Indexed)

Dates: 1890-1914

Extent/Size: 1 volume (0.11 cubic feet)

Sub-series description:

Sub-series 5600EN-140A Applications for Grade (1890-1914) includes one volume of applications from citizens requesting that they be given the grade and line for a sidewalk. An alphabetical index by ward is at the front of the volume. Each application includes: date of application; ward name and lot number; street fronting on; streets between; signature of applicant; signature of City engineer receiving application; date grade was given; and signature of City engineer by whom grade was given; and remarks.

Arrangement:

Numerical.

Inventory:

5600EN-140A Volume 1	Applications for Grade, 1890-1914 (July 8, 1890-January 31, 1914)

Sub-series #: 5600EN-150A

Name: Specifications [Quarantine Station and City Wharves]

Dates: 1888-1898

Extent/Size: 1 document case (0.5 cubic feet)

Sub-series description:

Sub-series 5600EN-150A Specifications [Quarantine Station and City Wharves] (1888-1898) includes one document case of papers and specifications related to engineering work on the City's wharves and the quarantine station on Long Island.

Arrangement:

Chronological.

Inventory:

5600EN-150A Box 1

Quarantine Station:

- Folder 1: Fumigating Building, no date (1 document)
- Folder 2: Building, no date (1 document)
- Folder 3: Quarantine Officers Quarters (Roof of Dwelling and Sides of Observatory), no date (3 documents)
- Folder 4: Report on work at, November 18, 1893 (1 document)
- Folder 5: Cableway, Lidyewood Manufacturing Company, November 1893-November 1896 (3 documents)
- Folder 6: Wharves and Tramway, May 1888-189? (6 documents)
- Folder 7: Wharves and Tramway, March 1897-October 1898 (6 documents)
- Folder 8: Tramway Extension, April-May, 1895 (4 documents)
- Folder 9: Repairs to Wharves, October-November, 1898 (5 documents)

City Wharves:

- Folder 10: Mooring Berths Near the Bight and Verres Point, Savannah River, September 1897-February 1898 (5 documents)
- Folder 11: Gangway at the foot of Bull Street, March 1895 (1 document)
- Folder 12: Wharf at the foot of Abercorn Street, May 1897 (3 documents)
- Folder 13: Wharf at the foot of Barnard Street, no date (1 document)
- Folder 14: Wharf at the foot of Drayton Street, September November, 1894 (6 documents)
- Folder 15: Wharf between Lincoln and Habersham streets, October-November, 1889 (1 document)
