**Name: City of Savannah, Georgia Records – City Treasurer**

**Dates:** 1791-1975, no date

**Extent/Size:** 904 volumes, 5 document cases, 4 folders, 39 rolls of microfilm (283.34 cubic feet)

**Organizational History:**

The office of City Treasurer was created at the first meeting of the newly established Savannah City Council in 1790 (Gamble, p. 48). As Savannah's financial officer, the Treasurer's responsibilities included: collection of monies due the City from taxes, license fees, rents, and duties; payment of vouchers approved by Council; custodian for redeemed bonds and coupons; maintaining accurate books on the City's financial affairs; and attending meetings of Council (Code of Savannah 1858, pp. 100-107). The City Treasurer also acted as secretary and treasurer of the waterworks in 1888 (Code of Savannah 1888, p.72).

In 1945, the office of Paymaster was created to handle the disbursement of salaries (Code of Savannah 1945, p. 81). The Finance Department was organized in 1958, and the Finance Director was assigned the responsibilities of: maintaining a set of general books for the City; keeping accounts with every official authorized to receive, collect, or disburse money, property, or effects of the City; auditing all departmental vouchers and papers against or in favor of the City; and preparing monthly statements and an annual statement and balance sheet for the City Manager (Code of Savannah 1958, pp. 276-278).

Entering the 21<sup>st</sup> century, the Finance Department continues to provide financial expertise and support to City management and the operating departments of the City. The department prepares the Comprehensive Annual Financial Report, disburses City funds through its payroll and accounts payable functions, issues checks to City pensioners, and oversees all the City's investing and borrowing activities (2008 Service Program and Budget, p. 68). The Revenue Department has three operating divisions, Treasury, Utility Services and Customer Service. The Treasury Division administers the revenue programs for the City, operates the Central Cashiering activity, administers collection of delinquent revenues, and coordinates compliance and enforcement efforts for alcohol licensing and other business activities within the city (2008 Service Program and Budget, p. 73).

***Sub-series description:***

Sub-series 5600CT-610 Memorandum of Exchange of Atlantic & Gulf Railroad (A&GRR) Endorsed Bonds (1883-1885) includes one volume regarding the bond issue of 1883. In February 1877, the City was on the verge of bankruptcy and the Atlantic and Gulf Railroad (consolidated with the Savannah, Albany and Gulf in 1869) was about to be sold under foreclosure. Such a sale would require the City pay \$300,000 of the railroad bonds it had endorsed in the 1850s. The legality of the City's endorsement of the bonds came into question, and it was finally decided by the U.S. Supreme Court in 1883 that the City was liable for payment of the bonds. A City ordinance of July 1883 defined the terms of a compromise to settle the debt, by which City Council issued 30-year bonds for exchange and provided for a sinking fund to redeem the new bonds (Gamble, pp. 223, 193, 299-300; Code of Savannah, 1888, pp. 369-370).

This record is divided into two sections: "Memorandum of bonds and coupons stamped in compromise under ordinance, July 4, 1883" includes the bond number, number of coupons on the bond, date stamped, amount of bond, and owner's name; and a record of the bond issue of July 1, 1883 divided into \$1,000, \$500, and \$50 categories (each category containing the date of exchange, bond number, to whom issued, number and amount of old bond, and the number of coupons on the old bond).

Section one: Chronological by date stamped.

Section two: Numerical by bond number.
