

Record Series #: 1121-041
Name: City of Savannah Photographic Collections: *Artwork of Savannah...*
Dates: 1902
Extent/Size: 1 document case (0.5 cubic feet)
Language: English

Scope and Content:

Record Series 1121-041, City of Savannah Photographic Collections: *Artwork of Savannah...* (1902), includes seventy-five (75) black and white plates from the volume *Artwork of Savannah and Augusta, Georgia*, by Charles Edgeworth Jones (Chicago: Gavure Illustrations Co., 1902). The original publication was produced in nine parts. However, the plates existing in this collection include only images of Savannah cut out from an original copy (this collection does not represent a complete set of the Savannah images). The images include scenes of: the Savannah River and riverfront; street scenes; prominent government, medical, educational, religious and residential buildings; parks, squares and monuments; cemeteries; and nearby historic sites and recreational attractions. Access digital copies of the plates in the collection are available and should be used before the originals to eliminate unnecessary wear and tear.

System of Arrangement and Ordering:

The original plates from *Artwork of Savannah...* are arranged numerically by the part and plate of the original publication. An alphabetical subject and name index is included after the inventory to assist users in finding specific locations, sites, buildings, etc. The access photocopies are arranged by general subject with an index at the front (each photocopy is labeled with the part and plate number on the reverse).

Conditions Governing Access:

None

Conditions Governing Reproduction and Use:

Please read carefully the statement on copyright below. **Permission to reproduce does not constitute permission to publish.** Researchers who plan publication are asked to discuss this with the archivist first for written permission. While most of the City of Savannah, Research Library and Municipal Archives collections are public records and in the public domain, not all are, and the Library and Archives may not be the owner of copyright for all its archival materials. Researchers are responsible for obtaining any necessary permission to publish from the holder of copyright. In the event that the Library and Archives becomes a source for publication, a copy of the publication is requested for the Library and Archives.

NOTICE: WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve a violation of copyright law.
